

NEAL CHAKRAVARTY

Ranchi, Jharkhand | 6201175021 | nealchakravarty930@gmail.com
LinkedIn: linkedin.com/in/neal-chakravarty | GitHub: github.com/cNealgithub

PROFILE

Highly analytical developer with a collaborative mindset, equipped with a strong foundation in Java, Spring Boot, and RESTful services to build secure, scalable cloud and SaaS solutions. Proven ability to translate complex logic into bug-free deployments, ensure optimized backend performance, and handle multiple tasks in fast-paced engineering environments.

EDUCATION

B.Sc (Computer Applications) | Dr. Shyama Prasad Mukherjee University, *Aug 2023 – Present*
Ranchi

SKILLS

Languages & Databases:	Java, JavaScript, SQL, PostgreSQL, MySQL, HTML, CSS
Frameworks & Web:	Spring Boot, RESTful APIs, React, Relational Database Design
Cloud & Tools:	GCP (Cloud Run), AWS (EC2, S3), Aiven Cloud, Git/GitHub, Maven, Postman, Vercel, SDLC
Competencies:	Testing & Debugging, Email, Ms Office, Secure Coding, UI/UX Principles, Communication

EXPERIENCE

Software Developer Intern | Central Mine Planning and Design Institute *Jan 2025 – Feb 2025*

- **Backend Architecture:** Designed and executed a secure full-stack Java-based CPRMSE portal to streamline workflows, ensuring the efficient storing and retrieving of enterprise data for the Finance department.
- **Security & Maintenance:** Implemented secure data access protocols to prevent data leakage vulnerabilities and conducted rigorous testing/debugging to guarantee bug-free deployments and service quality.
- **Collaboration:** Consulted directly with senior developers and internal stakeholders to clarify program intent and successfully translate product requirements into reliable system implementations.

PROJECTS

Digital Asset Marketplace (SaaS Web Application) [Live Link](#)

Role: Backend & Cloud Developer | **Demo:** username: [testLogin@01] | Pass: [testLogin@01]

Tech Stack: Java, Spring Boot, PostgreSQL (Aiven), GCP Cloud Run, AWS S3, REST APIs

- **Architecture & Logic:** Architected scalable RESTful services and relational databases using Spring Boot for highly optimized backend data storage and retrieval.
- **Cloud Deployment:** Managed production deployments on GCP and AWS, collaborating with the frontend via Git/GitHub for seamless SDLC execution and version control.
- **Secure Integration:** Implemented Razorpay payment gateway to process secure, end-to-end user transactions, ensuring coding best practices were followed to prevent data vulnerabilities.

Trayam Music Academy trayam-academy.vercel.app

Role: Freelance Developer | **Tech Stack:** React, Web3Forms, Vercel, UI/UX

- **Frontend Development:** Developed a custom React-based web application, applying UI/UX visual design best practices to create a highly intuitive user interface.
- **Data Integration:** Engineered and implemented seamless user data collection workflows by successfully integrating Web3Forms into the frontend architecture.
- **Lifecycle Management:** Managed the end-to-end freelance development lifecycle, from initial visual design to final deployment on Vercel.
